Mining Innovation Showcase Series

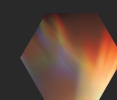

Nickel: Developing the Canadian Battery Supply Chain

With Cory Kosinski, Vice President Projects & Evaluations,
NiVolt Technologies

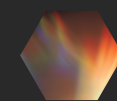

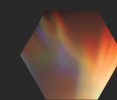

AGENDA

Welcome

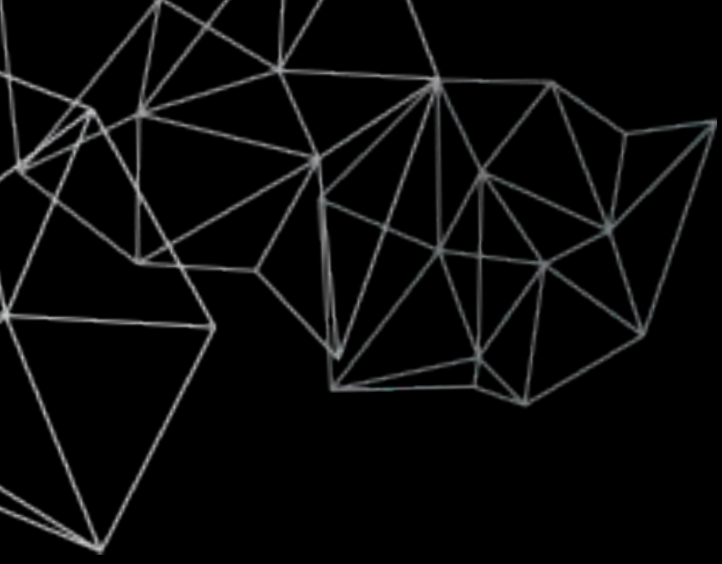

Nickel: Developing the
Canadian Battery Supply Chain

Q&A

Technology Presentations

This technical symposium is made possible by financial contribution from the Mining Sector Team at NRC IRAP (National Research Council - Industrial Research Assistance Program).

If you would like to connect with NRC IRAP, please contact Peter Howell:

Peter.Howell@nrc-cnrc.gc.ca

BMAC and NRC-IRAP are pleased to welcome the following organizations!

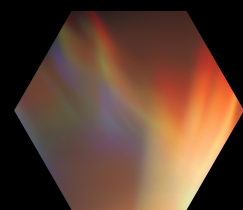

Cory Kosinski

Vice President Projects
& Evaluations

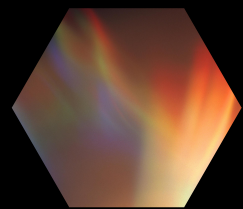

Q&A

Please use the “raise hand” zoom feature
or type your questions into the chat.

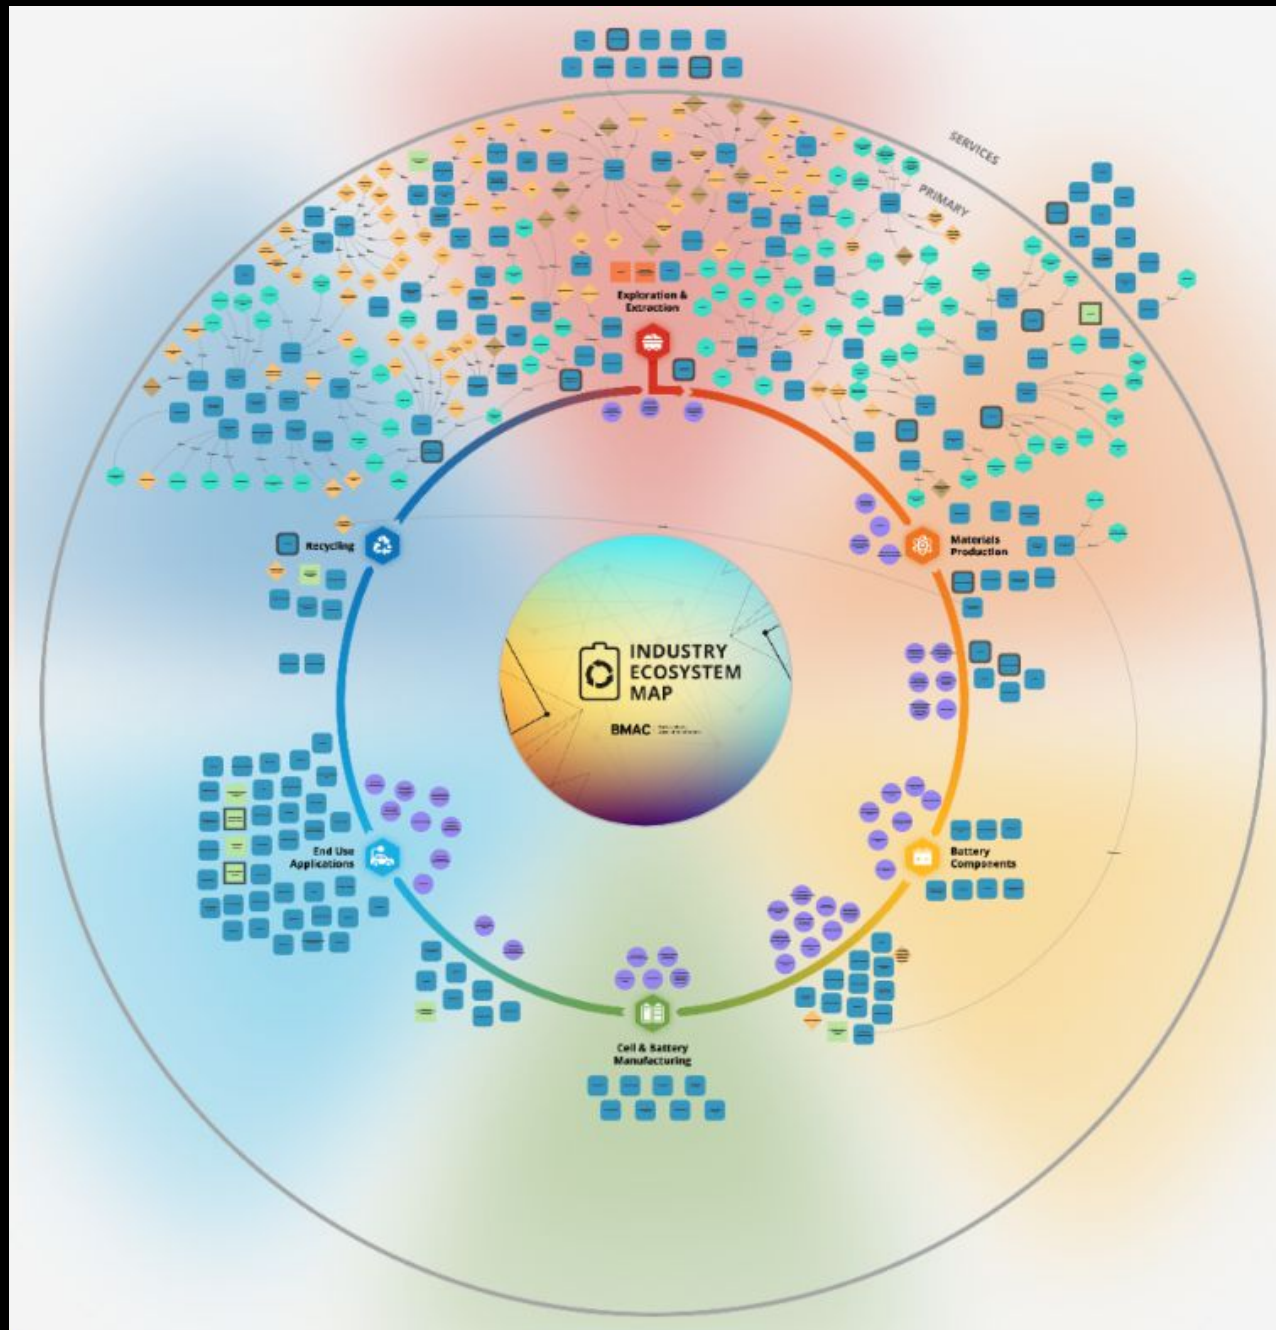

Please stay muted until called upon.

TECHNOLOGY PRESENTATIONS

BMAC'S WORK

A Roadmap for Canada's Battery Value Chain

Building a national strategy for critical minerals and green battery metals

Thank You!
